More Email Scams

We continue to see email scams that claim your account will be deactivated if you do not complete information on a web site. The emails have a PDF attachment, and the PDF has a link to a web site that asks for your username and password. These emails are specifically designed to get around spam filters, so they aren't being marked as [BULK] or discarded before reaching your inbox. Please remember that the best spam filter is the human brain. Yes, Tech Services will require you to change your password from time to time. However, we won't send you threatening emails with exceptionally poor grammar!

If you have fallen for one of these scams, you need to change your password and security questions immediately. See the [TigerNetID FAQs](#) to learn how to do this.

To learn more about online security, check out the links on the Tech Services security web site:

Teach an Honors Course

The FHSU Honors College is looking for exceptional faculty to teach courses to outstanding students on campus. Participating in one of the university's Programs of Distinction is a chance to expand learning opportunities for students, as well as experiment with new strategies in and out of the classroom.

While Fort Hays State University strives for academic excellence in all classes, at the heart of a successful honors program is the unique interaction between teacher and student, made possible by the opportunities of an Honors course.

Intellectual challenge, quality over quantity, and interactivity drive these unique courses. Exceptional faculty teach Honors sections **in-load**, with **small class sizes** full of **highly motivated students**. These can be an honors version of **one already offered, required courses, or special topics** reflecting unique research agendas.

For detailed information, to read the Honors College learning objectives, or to get started on your course proposal please visit: <http://www.fhsu.edu/honors/Resources-and-Forms/>.

Entrepreneur Direct Series Presents Niche Entrepreneurs Collen Ellis and Todd Sandoval

Tuesday, February 28, 10:30am to 11:45am

Eagle Communication Hall of the Robbins Center

Fort Hays State University has produced entrepreneurs who are scattered across America and beyond. There are those in major industries and then there are those who have developed their own niche.

The university will showcase two entrepreneurs who have started their own niche businesses. Each of these entrepreneurs has taken a unique need and built an innovative business around that idea. The presenters will be: Coleen Ellis, a pioneer and world leader in the field of pet loss who opened the first standalone pet funeral home in the United States, and Todd Sandoval, an innovator who is focusing on the niche market of premium, handmade/American baseball gloves while using his expertise as a Consultant and Online Marketing and Technology Director for Proven Winners.

Entrepreneur Direct is a speaker series conducted by Fort Hays State University's Robbins College of Business and Entrepreneurship that features successful entrepreneurs in an informal setting accessible to students, faculty and the public. The program is intended to connect students with successful entrepreneurs who have stories and advice to share. A panel asks questions about entrepreneurship and encourages questions and interaction with the audience.
